

***A COMPANY AT YOUR SERVICE...***

# *Our origin...*

- TAR was founded in 2000
- Established to provide technical advice, commissioning and complete equipment sale.
- By the beginning our area was specialized in industrial refrigeration facilities.
- In 2004 the business changed orientation towards general industry purposes & turnkey projects.

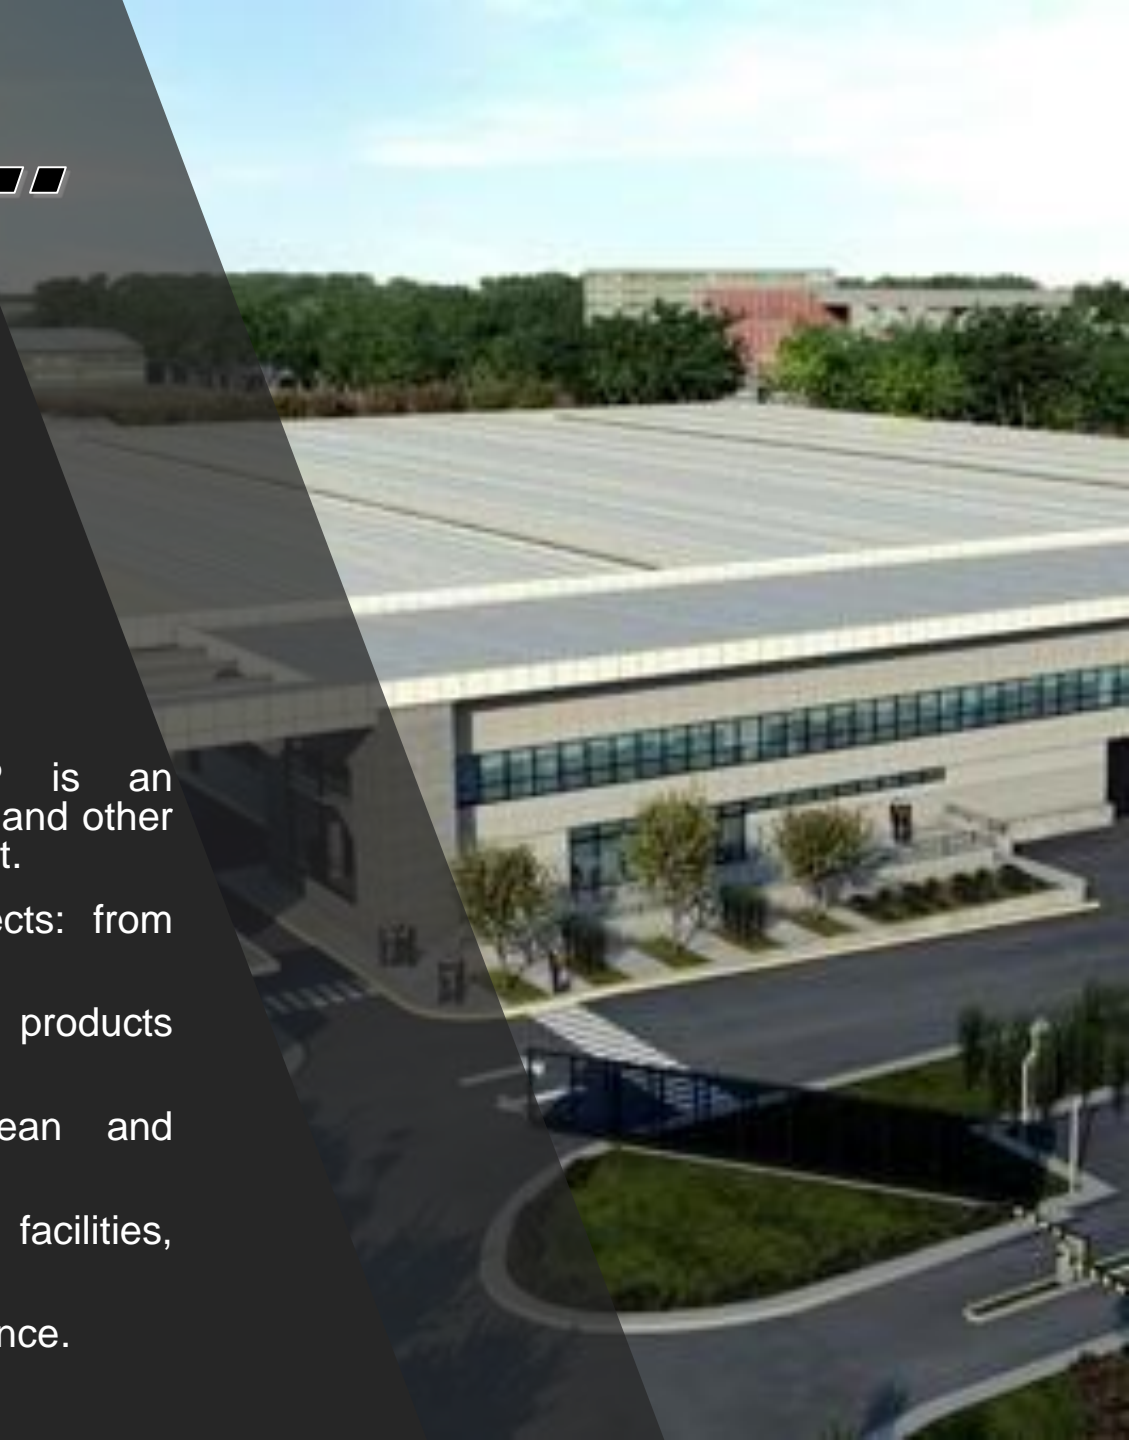

ISO 9001:2008

# ***Who we are...***

- Currently TAR INDUSTRIAL GROUP is an engineering consultant in industrial design and other specific equipment for the worldwide market.
- We can offer complete integrated projects: from design to commissioning.
- We can provide a wide range of related products from/for all industries.
- We represent major national, European and international companies.
- We have great knowledge of various facilities, systems and industrial processes.
- We have more than 150 years joint experience.

# ***Our group...***

- Management
- Administration
- In-House technical services & staff
- Drive-In services & staff
- Engineers & Sales Engineers
- Technical support service and commissioning teams available.
- Premium Quality Service provider
- Warehouse and Expeditions services

# ***Where we are...***

- Madid (head quarters)
- Barcelona – Malaga
- USA – Florida, Dr. Brian Glassman
- Iraq – Bagdad
- Iraq – Erbil
- Libya – Benghazi

# ***Principal customers...***

- Engineering's
- Governments
- Regional consortiums
- Refineries
- Oil & Gas Industries
- Solar & Green Energies
- Bio fuels production plants
- Laboratories
- Agriculture industry
- Dairy (Food & Beverage) Industry
- Wholesale & Distribution channels
- Installation companies

# ***THERMAL ENERGY***

- Our company combines the know how & control systems and we are capable to provide plug & play plants for Steam Generation Systems, Distribution of Steam Automation and Boiler Rooms.

# ***OIL & GAS***

- We can deliver complete turnkey projects, tools & components for any proposes and renewing your refinery or oil exploring system with the latest technologies.
- Your project will be in professional hands.

# ***COMMERCIAL FUEL STATION***

- Projects suitable for complete public pump stations with 4, 6, 12 or more dispensers systems, shop, carwash and of course a complete security and video control systems.

# WIND POWER

- We can supply complete plant design and equipment for cooling processes of transformers in high voltage output plants.

# FUEL & LIQUID TANKS

- We can supply any size of tanks, for any fuel / liquid for transportation and deliveries & commissioning in-situ.

# ***COGENERATION***

- We can offer a wide range of instrumentation, control systems & software that allows us to provide all the necessary equipment for proper operation.

# ***CHEMICAL INDUSTRY***

- Our products covers a very wide range of components for this industry: analytical- & flow meters in various versions are the most important for security adaptations.

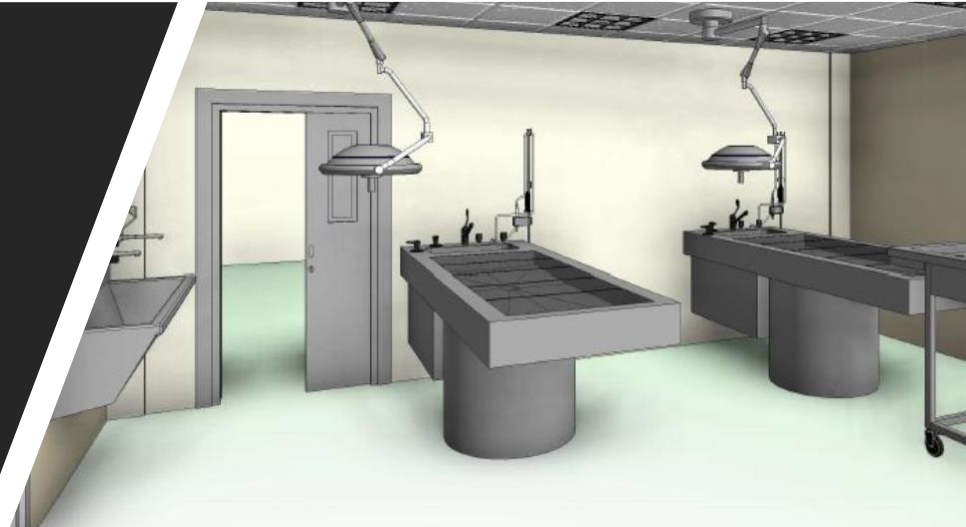

# ***LABORATORIES***

- Our instrumentation program and related certified materials are suitable for sanitary equipment and to measure “**CRITICAL**” control processes.

# HOSPITAL EQUIPMENT

- We can supply complete equipment's for:
  - Hospitals
  - Operation rooms
  - Emergency rooms
  - Autopsy rooms
  - X Ray rooms
  - Intensive Care Units
  - UPS systems

# AMBULANCES & MEDICAL UNITS

- We can deliver ambulances and mobile medical units with the equipment you need:
  - Private
  - hospitals.
  - Govt
  - Consortiums
  - Army

# ***DAIRY INDUSTRY (FOOD & BEVERAGE)***

- Our complete range of products for steam & regulation, along with sanitary pumps & and our control systems are a very demanded item by those industries.

# ***PAPER / PAPERBOARD INDUSTRY***

- Large consumers of steam and condensate: a wide range of our products are used in the production processes.

# ***TEXTILE INDUSTRY***

- Large amounts of instrumentation to measure velocity and temperature, together with control software is the most important part of our supply to this industry.

# ***SEWAGE PLANTS***

- Big valves and precise control software and our wide range of positioners allows us to adjust the position of the valves to the desired values, accurately and without water hammer.

# ***CONCRETE PLANTS***

- We size control and supply equipment for the processes associated with the manufacture of concrete and cement & other related mixes.
- Or for your turnkey project!

# BIO FUELS PLANTS

- Ethanol plants
- Biodiesel plants
- Biomass plants

# ***CSP & PV POWER PLANTS (SOLAR)***

- We combine the know how & control systems and are capable to provide plug & play power plants for PV & CSP.
- Fluids: water, direct steam process, thermal oil or molten salts process.
- Combination, implantation or incorporation of existing industrial systems.
- 24/24 – 7 days / week running in combination with biomass, gasoil or gas boilers.
- Power generation
- Desalinization of seawater
- District HVAC systems
- Direct steam production.

# ***TURBINES & BOILERS***

- Gas & Steam turbines
- Gas, Steam & Biomass boilers
- Generators
- Conventional islands
- Combined cycle power
- Integrated gasification
- Turbine & Boiler controls
- Plant control systems

# GEN SETS

- Diesel generators
- Gas generators
- Hybrid Microgeneration Systems
- Marine generators
- Light towers

## Applications:

- Oil & gas
- Nuclear
- Distribution
- Medium voltage
- CHP
- Black start
- Dual frequency
- Military

# ***IN- & OUTDOOR SOLAR LIGHT SYSTEMS***

- We manufacture **LED lighting** that is tailor-made for each client. We assure the best choice for each project in anywhere.
- Our clients satisfaction is our number one priority; we are therefore based on offering custom-made solutions for each and every one of them.
- Our goal is to offer products of the highest quality that achieve great efficiency and savings.

Outdoor:

Streets, parks, pedestrian crossings & parking lots.

Indoor:

Industrial plants, warehouses, fulfillment- and shopping centers & gas & fuel stations

# ***INCINERATORS, CREMATORIES & PYROLYTIC***

- We are a company dedicated to the design and supply of equipment, plants and technologies for heat recovery, air or gases heating, incineration, VOC's abatement and industrial heating.
  - Air or gases heating
  - Heat recovery
  - Funeral sector
  - Pet cremation
  - Waste valorization

# ***LAUNDRY SOLUTIONS***

- From household to commercial laundry... to Industrial Laundry...
- Washing
- Drying
- Flatwork
- Finishing
- Irons & tables
- Auxiliary equipment

# ***FURNITURE KITS***

- Kit systems... Do it yourself...
  - Salon
  - Kitchen
  - Bedroom
  - Bathroom
  - Basic furniture
  - Kids room
  - Offices

## OUR LATEST INCORPORATION

- Maximum efficiency
- Minimum load loss
- Removable serpentine to repair
- Accumulation and exchange in a same team
- Removable serpentine for cleaning

***HEAT EXCHANGERS & STORAGE***
